### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art fails to teach or fairly suggest the claimed invention as a whole including a cap secured over the second bearing boss having a plurality of ribs formed thereon that serve to reduce an amount of the liquid, which is entrained in the gas that is communicated from the annular chamber to the breather chamber or a plurality of oil return holes having a second diameter and through which oil flows from the outer side of the bearing boss to the crankcase, wherein said second diameter is smaller than said first diameter. Note that this application is very similar to Yonesawa et al (5,937,836), cited by applicant, and appears to differ only in the above mentioned features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marguerite J. McMahon whose telephone number is 703-308-1956. The examiner can normally be reached on flex.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Yuen Henry can be reached on 703-308-1946. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
